GREAT SEA DISASTER IS NARROWLY AVERTED

Steamship Alameda Goes on Rocks in Fog at Golden Gate.

SAN FRANCISCO, Sept. 30.-The steamer Alameda of the Oceanic Steamship company's line, which started for Honolulu today, ran on the rocks at Fort Point, on the southern side of the Golden Gate. She had a large list of passengers all of whom were landed in and every effort is being made to pull the vessel from its dangerous position. The accident is attributed to heavy fog, which prevailed this forencon. Where Vessel Struck.

The point at which the vessel struck s on a ledge of rocks that makes off to the northward from the old brick fort, extending about 200 yards. There is a buoy about 400 yards northwest of the ledge, but between the buoy and the ledge there is a depth of about seven fathoms of water. When the Alameda sailed there was much fog which alternately lifted a bit and then thickened up.

Disaster Narrowly Averted.

Disaster Narrowly Averted.

Had the vessel been going at a high rate of speed a greater disaster would doubtless have occurred. As it was she was running at a slow gait.

On Fort Point there is a lighthouse and a fog horn, but the sound of it may have been confused with the whistles of the many craft on the bay.

The Alameda's cargo is valued at \$100, -00. The vessel started out of the harbor in charge of Pilot C. B. Johnson. The passengers were landed by lifeboats and tugs and returned to the city over the street car lines, which extend nearly to the scene of the accident.

Crew Did Good Work.

CHICAGO, Sept. 29.-Details of a series of sensations which are alleged to have smoldered for months in Cambridge, III. and which may explain the mysterious death of John V. Streed, a prominent attorney and politician who was found lifeless at his office door in Cambridge a week ago with a bullet through his head,

were revealed here today. Murder of a Domestic.

Dr. Byrd C. Powell, a veterinary surgeon of Sandwich III., came to Chicago and told a story running back of the recent suicide of his brother. William D. Powell of Cambridge. The story discloses a chain of facts connecting the Powell and Streed cases with the virtual murder of a Swedish domestic in the home of a wealthy and prominent man at Cambridge more than the years ago. She was buried secretly, without death certificate or inquest.

or inquest.

In the opinion of Dr. Powell, Attorney Streed was murdered because Streed knew the truth behind the woman's death. Streed got the facts from William D. Powell, who committed suicide August 25 last, after Mr. Powell's home had been broken up and the guilty persons shielded, it is alleged, by influential political friends.

Driven to His Death.

Dr Powell declares his brother was driven to his death by a clique at Cam-bridge. He suspected several men of prominence of being too friendly with his wife and encountered as a result, perse-cution which it is said drove him to sui-cide.

cide. Finally Powell awoke one morning to find "Tar and Feathers" written on his door with a note ordering him to leave town within four days or suffer violence at the hands of a mob.

Summoned His Brother Then Powell summoned his brother. William detailed the story of his sufferings, of his love for his wife, the persecutions and the threat of death.

"What shall I do?" he asked in despair. "Go after them," replied his advisor. "You know something of the death of this Swedish girl. The men persecuting you are involved in that case. Go after them."

Streed Wouldn't Prosecute.

Two detectives arrived at Cambridge as Two detectives arrived at Cambridge as a result to work up evidence in reference to the death of the domestic. W. D.
